

## Track 2

### Session 4 – Working with i-Tree Eco

#### i-Tree Eco: Project planning, creation, and the pilot project approach

Wednesday, 15<sup>th</sup> January 2025

Time: 10:00 AM to 12:00 PM Eastern Time (US and Canada)

Join Zoom Meeting

<https://us02web.zoom.us/j/85062463821?pwd=KccKbqPkpFw1v4ggOtD1o00eDHhXbJ.1>

Meeting ID: 850 6246 3821

#### Session 4 Learning Objectives:

- Be able to make early decisions when planning an i-Tree project
- Understand the data entry options and methods for i-Tree Eco
- Begin working with i-Tree Eco
- Explore the different uses of a pilot project

#### Overview

This will be the beginning of our hands-on work with i-Tree Eco. We will begin to explore all the decisions that go into planning, setting-up, and carrying out an impactful i-Tree Eco project. A pilot project can be a great way to start exploring i-Tree Eco. Some members of our team members will discuss how they got started with a small pilot project and how that led to bigger projects with greater impact.

For this session we will focus on using the complete inventory option. In coming sessions, we will explore how to get more localized results using i-Tree Database and when it is appropriate to use a plot-based statistical sampling approach.

#### Schedule

1) Welcome & updates

*-Break-*

2) Getting started with i-Tree Eco

- a) Software Installation
- b) Project planning
- c) What are your goals?
- d) Key decision points

4) Project set-up walkthrough

5) Pilot project discussion with Fabiola and Akshat

3) Hands-on i-Tree Eco application orientation

6) Homework introduction and questions.
