

i-Tree Canopy Quiz

This quiz consists of True/False, Multiple-Choice and Fill in the Blank questions. Please take your time review each question carefully and then answer each of the quiz questions.

- 1) i-Tree Canopy allows users to estimate tree cover and tree benefits for a given area with a random sampling process that lets you easily classify ground cover types.
 - True or False
- 2) To use i-Tree Canopy, users can draw their own project area boundaries onto Google Maps within the online program.
 - True or False
- 3) Fill in the blank: i-Tree Canopy randomly generates _____ points and zooms to each one so you can choose from your pre-defined list of cover types for that spot.
- 4) i-Tree Canopy cannot be used to estimate tree and other cover classes (e.g., grass, building, roads, etc.) within their city or any area of your choosing.
 - True or False
- 5) Using i-Tree Canopy, you can use any one of the following to identify your study area, except:
 - Adding locations from TSA no-fly listings
 - Drawing your own project area boundaries onto Google Maps
 - Load an ESRI shapefile
 - Select from existing geographic boundaries
